REMARKS

This application has been carefully reviewed in view of the above-referenced Office Action, and reconsideration is requested in view of the following remarks.

INTERVIEW SUMMARY

This application was discussed with SPE Andrew Fischer on Feb. 8, 2008. During that interview, agreement in principle was reached that claim 29 is allowable as is, and that the remaining independent claim including claim 1 would be allowable if amended to include the features of claim 12 (and intervening claims 9, 10 and 11), the displaying feature as amended and elimination of the "at least one of" language from the independent claims. This amendment is submitted to make such amendments and place the present application in condition for allowance.

SPE Fischer reviewed the specific language of this amendment and confirmed later on Feb. 8, 2008 that this amendment places the application in condition for allowance. Accordingly, such is respectfully requested at an early date.

It is noted that the present amendment is only submitted as a result of the agreement of allowance by SPE Fischer. In the event such agreement is withdrawn by the Patent Office for any reason, Applicant reserves the right to re-instate the current appeal either with or without the present amendments to the claims.

In view of the above, all claims are in condition for allowance and such is respectfully requested at an early date.

Respectfully submitted,

/Jerry A. Miller 30779/
